

Ingrid Loynes: Candidate for WMS President

Hi, I'm Ingrid and I'm a 2nd year Maths student! I'm running for the role of President of WMS as I have hugely enjoyed being part of WMS so far; I would strive to create as positive an experience as possible for anyone who interacts with the society

Why me:

- One of the welfare officers for this year - experience of how different roles exec fit together within WMS
- Strong communication and organisation skills through my past science festival volunteering; comfortable interacting with different groups within an organisation. I would therefore feel confident interacting with the maths department and SU on a regular basis
- Experience planning and hosting events (eg Ada Lovelace Day 2024)

Aims for the role:

- Be an approachable figure for all WMS members (and a reliable source of support for exec members)
- Focus on how WMS can help to ease the move from sixth form to university
- Hold more collabs with other societies - after the success of this year's collabs, I'm confident that we can introduce some exciting new events

Please email me at ingrid.loynes@warwick.ac.uk or come up to me in Zeeman if you have any questions!!
