

VOTE VAL...

...for Treasurer :)

About Me!

Hi, I'm Val (they/them) and I'm running for the position of treasurer in WMS next year! As a first year MMath student, I want to try and take this opportunity to get more involved with the society, as well as to gain some experience in helping to run a society from the inside. I also have an absolutely adorable cat called Monty and it would totally make him happy if you voted for me so honestly I think that's reason enough already :)

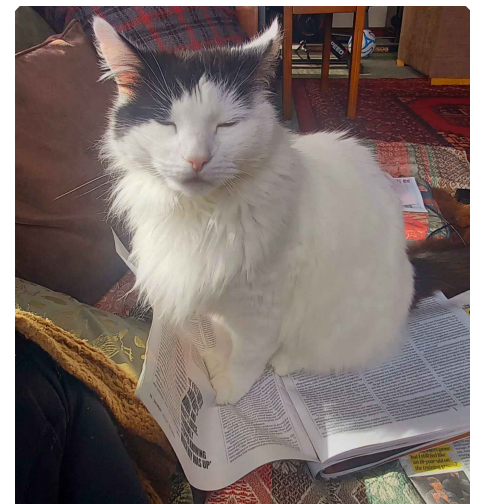

Why Me?

- I bring strong communication skills to the role, developed during my time as part of National Theatre Connections, to ensure dialogue with the rest of the exec, and society as a whole, remains open and clear in regard to its financial obligations.
- Managing finances requires reliability, organisational skills, and attention to detail, all of which I bring to the table.
- I will use my experience in maintaining records and providing clear reports on finances from time spent volunteering at my local village shop to maintain the effective management of the society's money.
- Honesty is a value vital to this role; I pride myself on my sense of integrity, and will be fully committed to the ensuring the society can continue to host many events and socials.
- I'm willing and able to quickly learn and adapt to the role as it's required.

Watch Me...

If you vote for me as treasurer then I will:

- Be fully transparent and maintain an open line of communication about budgets and expenditures
- Responsibly manage the society's funds to ensure we can hold as many events and socials as we have in the past (if not more)
- Make sure money is spent as efficiently as possible to maximise the benefits for all of you
- Reach out to companies to obtain sponsorships to further develop our financial sustainability

Now to You:

Time to have your say! Whether you vote me for your treasurer or not, here's to another great (possibly even better?!) year for WMS! (And have another picture of Monty stealing a newspaper) Val out :)
