

We are Will and Kai!

Time to Ramp Up the Socials.

1. Many more Sober Events including:
 - a. Movie Nights
 - b. Bowling
 - c. Poker Nights.
2. More Drunk Integration Bees.
3. At least one-week's notice for all Socials.
4. Better collabs with other societies.

Important: Maths soc is our life. We will hold to at least 1 drinking and 1 sober social per week in terms 1 and 2!

It Comes Down to how we'll Perform.

- It takes a lot of leadership to run so many events.
- We are definitely not the best at maths but we are confident people outside the exam hall.
- Kai downed a spoons pitcher in 17 seconds.

Use our Advantage.

1. We know how hard it is to run events and yet we are still up for the challenge.
2. We were chosen to jump in and run a Nordic circle together, so we have the crucial experience.
3. We were encouraged to run by the current execs.

Maths Soc can be Legendary.

- We have the confidence, experience, and fun-loving spirit to pull this off.
- There is a huge responsibility to make an incredible environment for all current and future maths students...
- So help us all cement our generation in maths soc history!

Do yourself and the people who couldn't come today a solid and vote for us!
