

Wong Yit Jet

Running for Talk Coordinator

My Commitments

- **Encourage interaction between audience and speaker**

Currently, rooms are booked for 1 hour, leading to congestion outside of the room during post-talk discussions. Booking the space for longer allows for already occurring discussions to occur in a more orderly manner.

- **Recordings of Weekly Maths Talks**

I plan to have the weekly Maths talks recorded, under permission from the speaker, and uploaded to a society platform, increasing accessibility and awareness of the talks.

- **Breadth of topics**

I would like to ensure the continued breadth of topics covered in the weekly maths talk.

About me

- **Interest in Maths Talks**

I have attended almost every weekly Maths talk in both terms. I have attended WIMP during term 1, and will also be attending WIMP in term 2.

- **Broad interest in Maths**

I enjoy the breadth of topics covered in the talks and would strive to continue this to appeal to people of varying interests.

- **Relevant Experience**

I have planned and led an end of year assembly for my school. This involved looking for and coordinating with interested performers to perform during the event.
