

Isabelle Salway

for
Freshers Representative!

ABOUT ME:

- I am a first year MMath: Mathematics student.
- I love to read, play the cello, and learn/do maths!
- My favourite play is Arcadia (Fermat's Last Theorem and fractals feature heavily!)

MY GOALS:

- I'd love the opportunity to represent freshers within WMS and help make sure every first-year has a great experience, both **socially** and **academically**.
- I plan to help bridge the gap between us first years and the execs; to make it easier for those with new and **fresh ideas** to see them implemented.
- Add to the **WMS website** so that both freshers and Year 13 offer holders can easily discover events, opportunities, updated **revision resources**, with top tips, summaries etc, and what life in the Warwick maths community is really like.

WHY ME?

- I have excellent **communication** and **organisational** skills.
- I am amazing at **circle** games (WMS circles are elite).
- I am **approachable** (unless it's 9am).
